Blazing Trails on Two Continents

Erlend Hartang

Two young men, each with a delightful wife and child, began their studies at The Master’s Seminary this fall. This is a normal occurrence here—except in this case they both traveled from home countries from which TMS has never had a student and which are in desperate need of biblical preaching. Erlend Hartang and his wife, Henriette, came from Norway, where Erlend had served as a youth pastor. The church in Norway has been weakened by a long-held academic assault on the inerrancy of Scripture, so Erlend desires to return to Norway as a pastor to boldly preach the life-changing Word of God.

A second student, who cannot be named or pictured here for security purposes, came from a country in the east which is not friendly to Christianity where he served faithfully in a local body of believers. He is eager to bring his TMS training back to his homeland to help meet the dire need for training pastors who minister in a hostile environment.

Please pray for these men as they study intently to strengthen the church in two challenging areas of the world.

Expectantly,
We Train Men as if Lives Depended on It!
